# Air quality measurements at schools and day care centers

3x 1. Workshop 2. Data-analyses 3. Proof-of-Concept

4 Weeks to results

Azure and Power BI based Architecture

Model for mould risk
20 °C & 90 % RH

CASE
LOOPSHORE

> We got from data clinic project in a short time concrete results which we can utilize in developing our services further. At the same time we learned more on data driven service development and project model which can be repeated in the future.

JANNE EDGREN, LOOPSHORE OY
